## **DETAILED ACTION**

### ***Claim Objections***

Claims 62 and 73 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims 62 and 73 have not been further treated on the merits.

Claim 3 is objected to because of the following informalities: In line 1, "leas" should be changed to --least--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 59-61 are rejected under 35 U.S.C. 102(b) as being anticipated by Razgulov et al (3,908,662). Razgulov teaches a method of everting a blood vessel comprising engaging a tip of the vessel at a plurality of points around its circumference, inverting the tip by inverting the points and pulling the points towards the distal end of the vessel (see Figures 13-15).

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
